Professional Experience:

Todd Friedlander is a Principal at ACG Architects and has on worked a wide range of project types, from residential renovations, to large-scale complex renovations and facade restorations, to new restaurants, to Diplomatic renovations. His prior experience in the San Francisco Bay Area included working for local cities and county governments on several ID/IQ tenant improvements, community centers, a visitor center, crime lab, public health labs/offices and coroner's lab. For his corporate clients, he has completed numerous retail renovations, interiors offices, and a design-build high rise apartment building and warehouse condominium conversion. He brings with him a unique skill set and experience on a wide range of project types.
