Some people who received this message don't often get email from terrybl@gmail.com. Learn why this is important

Dear neighbors,

We write today to express our enthusiastic support for the development of the proposed Rock Creek Club.

We live on Tilden Street, nestled between Cleveland Park and Van Ness, just up the hill from beautiful Rock Creek Park. We look forward to having the Rock Creek Club becoming a wonderful asset for our neighborhood.

Given our location, we generally plan to arrive by foot or perhaps bus on a rainy day. We are regular WMATA riders - both bus and Metro - and believe that having amenities that encourage non-auto transit is a great fit for the area.

Community connection and access to nature are incredibly important to us. So often, finding spaces that combine both means traveling outside the city. Having a welcoming space right in our own backyard where anyone can gather to be active, social, and in nature with friends and family is something we are very excited about - and we know neighbors share our excitement.

Rock Creek Club will be a tremendous addition to our community. We appreciate your efforts in support of these plans.

Should you have any questions or if there is additional information we can provide, please do not hesitate to contact us.

Thanks and best,
Drs. Brian and Terry Babcock-Lumish
