Dear Members of the Board of Zoning Adjustment and ANC 3C,

We are writing to express our strong support for the proposed Rock Creek Club and its application for a zoning special exception (BZA Case 21510).

We live in Adams Morgan, and we are excited about the prospect of having a community space in our neighborhood. The opportunity to bring people and families together in a beautiful natural setting, with opportunities for recreation, sports, social interaction, and relaxation, would be a wonderful addition to our city.

What particularly appeals to us is the combination of community in a nature setting within walking and biking distance from our home as well as our son's school. Families in DC must generally leave the district and drive a significant distance to enjoy this kind of environment. Rock Creek Club would offer something truly special right here in the city, accessible to families like ours, with a catchment area within close proximity to our homes. The fact that we live so close to each other is what is particularly attractive to us – it's arguably the definition of a sustainable neighborhood community.

We believe the Club would be a great asset to the surrounding neighborhoods and the broader DC community for generations to come. We strongly encourage the BZA and ANC 3C to support this initiative – and we hope this fantastic initiative will commence soon so we can start enjoying the neighborhood club.

Sincerely,

Michael, Tejal & Raoul Engman
