Subject: Testimony on case number 14-18A; Brookland Mannor

I am Nick Lyell, a ward 5 resident in district 5E-07. I would like to testify in favor of inclusion of robust affordable housing, including the retention of large bedrooms, so that no resident is displaced from their existing community.

I support more affordable housing and public housing in ward 5. Please make sure our city is available and affordable to all residents. Stop the building of all housing that is not low-income accessible!

Sincerely,
Nick Lyell
