Perkins&Will

Rob Grabarz, AIA, NCARB

Managing Principal

With over 20 years of industry experience, Rob is an expert in project management and delivery, with an emphasis on handling complex relationships with clients and multi-faceted project teams. Projects include Interior Architecture for the corporate and legal sectors, base building design and implementation, and base building renovation and repositioning.

Rob is responsible for initiating, developing and monitoring protocols for of document production, technical content, quality assurance and the construction process to ensure a holistic, consistent approach to project delivery. He provides building system analysis, project budgeting and scheduling to meet client goals and objectives.
