Good afternoon Ms. Robinson,
I'm writing on behalf of our team to follow up on two requests you raised at our Takoma Park Library discussion on DC 2050.

1. You asked that we review the Record of Decision for the Rock Creek Tennis Stadium to consider how the DC 2050 draft future land use map may relate to the National Park Service's EIS conclusions. I can confirm we did review the document and have determined it does not speak to density or development of the neighborhoods around the Tennis Center.

2. You asked us to share our displacement modelling or analysis for DC 2050. The plan, which will be shared with the public next month, will contain policies that seek to mitigate displacement at a citywide level. This 2-pager from Phase 2 briefly describes the factors, including displacement, that we considered when making the draft future land use map (*source*: https://dc2050.dc.gov/pages/draft-future-land-use-map).

Thank you for your participation in this process,
Lauren
