Washington, DC 20001

Re: Zoning Commission Case Number 06-11A / 06-12A
~~09-19~~

Chairman Hood:

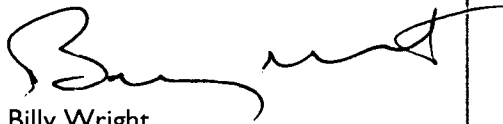

I am writing in support of the development project on Square 103. George Washington University is applying to build an underground parking garage on the 2000 block of G Street, NW. The university has a large parking garage at 22nd and Eye Street NW. Since that garage will be removed this year, the parking spaces will need to be moved. This location will help keep the parking locations even across campus.

GW owns the surrounding property and neighbors will have little impact from the construction. The new project will be much more attractive and have better landscaping than the current site.

I am a long-time resident of Foggy Bottom and was involved in the Campus Planning process a few years ago. I hope the commission will consider my opinion in its decision.

Thank you for your consideration.

Sincerely,

Billy Wright
