District of Columbia Zoning Commission
Attn: Chairman Anthony Hood
441 4th Street, NW Suite 201 South
Washington, DC 20001

RE: Z.C. Case No. 06-11F/06-12F

Dear Mr. Anthony Hood,

I am writing to the zoning commission in hopes of getting the approval of the construction of the GW Museum. Since moving to DC a year and an half ago, I have greatly enjoyed the district's plethora of museums. DC seems to have every museum for every interest. I believe that adding an even more accessible museum on campus will not only create a greater sense of pride in the Foggy Bottom community, but it will also induce students to become more interested in DC's history.

I believe that students at GW, a District of Columbia institution, should understand their city's history. The Albert H. Small Washingtoniana Collection will educate the Foggy Bottom community about DC using maps, letters, engravings, and objects related to the city's history. It will be a great resource for students to have such great artifacts relating to DC at their disposal.

Thank you for your consideration of approving the GW Museum. I hope for the community's educational benefit as well as GW students', the zoning commission will approve this project. I look forward to hearing the zoning commission's decision.

Sincerely,

Kimia Pakdaman
