

Michael E. Hickok, AIA

Principal

Over the years, Mr. Hickok has built Hickok Cole Architects into one of greater metropolitan Washington's top design firms. Located in Georgetown, Hickok Cole's portfolio includes Class A office buildings and interiors, national non-profit and association headquarters, financial institutions, schools, museums, and an extensive array of upscale condominiums and mixed-use developments.

EDUCATION

Mr. Hickok's undergraduate work at the University of Pennsylvania combined with his graduate degree from Harvard's prestigious Graduate School of Design stand as a base for his success within the design industry. During his studies at Harvard, Mr. Hickok was a teaching fellow under Peter Smithson and the recipient of a Graham Foundation Scholarship. In 1978 and 1979, he was the first runner-up and finalist in the international Rotch design competition.

DESIGN PHILOSOPHIES

His focus for the firm is first and foremost, great award-winning designs, but he also prides himself on having developed a company that supports grand ideas with technically superior construction drawings. Working with the top developers in the region, along with the best contractors for over twenty years, Hickok Cole has garnered a reputation as a go-to firm when a project needs a great design, a balanced budget, and a creative solution to complex problems that arise in the ever-present zoning and review board constraints prevalent in the region.

COMMUNITY SERVICE

Mr. Hickok believes strongly in community service and supports the local art community with an annual ART NIGHT. This event not only provides a marketplace for local artists to gain visibility and sell their work, but it also encourages a dialogue within the local architectural community—one of the few times these competitors can come together without having to compete. He has served as the past president of the D.C. chapter of the American Institute of Architects and is on several local boards including the Jubilee Support Alliance and the School for Friends. Mr. Hickok has long served as a leader in the region's real estate and design community.

ASSOCIATIONS AND REGISTRATIONS

Mr. Hickok is a registered architect in the states of Maryland, Virginia, New York, and the District of Columbia. He is a current member of the American Institute of Architects, Urban Land Institute and the National Trust for Historic Preservation.

Mr. Hickok has been a guest speaker for numerous organizations, including a recent program at the U.S. Department of Housing and Urban Development on the topic of affordable housing. He was recently a featured speaker at the AIA DC's 2006 *Design DC* Conference.

Michael E. Hickok, AIA
