Re: Board of Zoning Adjustment Application No. 17023
Danbury Street, S.W.

Dear Members of the Board

I support BZA Application No. 17023, to allow the construction of 119 single family townhouses on Danbury Street, S.W. The Jade Group, which is the contract purchaser of the property from the tenants association, proposes to demolish the existing garden apartments, which were constructed in the 1940s and which have been vacant and abandoned for some time.

Putting new for-sale houses on the site will be a significant improvement to the site for the neighborhood. Each house will have an enclosed garage, which will protect the vehicles of the owners and which will enhance the value of the development. Additional surface parking will be provided, as well as landscaped entry courts and front yards. The site has a difficult slope, but the houses will blend into the site, following the grade up the hill.

The replacement of the empty and derelict apartments with these new single family residences would be consistent with the general purpose and intent of the Zoning Regulations and Zoning Map and would not adversely affect neighboring properties. The city's Comprehensive Plan specifically calls for replacement or rehabilitation of buildings which do not contribute to neighborhoods. The Board would be doing the Bellview neighborhood a great service by allowing this project to proceed.
