Subject: RE: Urgent Contact

The projected capacity for Patterson upon completion of construction is approximately 500. It should be available by the 04-05 school-year.

Importance: High

Ms. O'Hara:

Thank you for sharing your tables and then speaking with me about this matter.

As a kind of e-minder, this "reply" serves to nudge you to provide us Monday (or earlier) with the capacity of "new" Patterson, as compared to the current displaced one. You thought, but were unsure, that new Patterson would have capacty signficantly higher than the number of children at HR Harris-based "Patterson." Such capacity would thus be able to absorb the numbers of children across its grades a project such as the one we contemplate (119 townhomes) might generate. If you can secure a firm figure for the capactiy of "new" Patterson, we would very much appreciate same. Thanks, and have a good weekend.

Lindsley Williams

My number is 576-8267. I have attached a chart I have been using for the area containing both Leckie and Patterson showing current and projected enrollment as well as capacities for the schools. I have also included my latest projection for next year, school by school, grade by grade. Currently, Patterson is located at PR Harris, while its building is being modernized. There is a possibility that Patterson will become a prek-5 school (it will no longer have a 6th grade) which will affect its enrollment. The 6th grade would go to Leckie. I hope this helps.

Subject: Urgent Contact

Ms. O'Hara,

Can you please call me immediately? If I am not in, please leave a voicemail and tell me what number to use to reach you. The City wide call center declared your number as 442-4289, but that is not correct.

I need to discuss some issues of school enrollment (Leckie and Patterson) to prepare for a Board of Zoning Adjustment case next Tuesday. Karen Thomas in the Office of Planning referred us to you. Thank you.
