D.C. ... 2005 DEC 12 AM 8:52

PETITION

We, the neighbors of 1636 Irving Street NW, request that the ANC take all necessary actions to compel the developers of the 1636 Irving condominium project to comply with the zoning regulations of the District of Columbia. Should the developers refuse to comply, we strongly urge the ANC to file an appeal with the Board of Zoning Adjustment (BZA).

We believe that overbuilding and then illegally cramming 7 condo units into a single-family row house is entirely inappropriate for our historic neighborhood. While the Department of Consumer Affairs has admitted to making a grave error in issuing permits for the building, its decision not to take any corrective action is deplorable. We believe that developers must be held accountable for willful violations of zoning regulations or such violations will continue to the detriment of our neighborhood.
