Re: Request to accept late filing of a Motion for Consideration, BZA Appeal No. 18031

Dear Members of the Board:

I am attaching a request that the Motion for Reconsideration received by the Office of Zoning at 3:23 p.m. today be accepted as timely filed on this day. I attempted to first file this Motion at approximately 2:50 p.m. today, and it appears that the e-mail was not received until 3:23 p.m., due to transmission or reception problems. I was able to send and receive e-mails during this time, but I cannot confirm that transmission errors were not on my end. I respectfully request that this submission be accepted as timely filed.

In addition to regular form of service by first-class mail, I have e-mail served all parties by 3:45 p.m., so I believe that no party will be prejudiced in any way by the delay in the receipt of this Motion.

Sincerely,

Martin P. Sullivan

BOARD OF ZONING ADJUSTMENT
