### Additional Notes:

- Store 34488 opened in August 2010. As the store becomes established and sales continue to grow, the % of Hot Food/Grill sales to total will continue to come down closer to the DC average as other category sales will grow larger in aggregate over food sales.
- We do not actually cook any food in a 7-Eleven store. All of our Hot Food and Roller Grill items arrive at the store fully cooked. Our Roller Grills and Hot Food oven simply heat the product for sale.
- SKU count and Selling Space ratios would vary less than 1 to 2% when comparing this store to the DC average.
