Subject: Modification BZA Case 18227, Corcoran Gallery of Art - request for expedited hearing date

At its public meeting of April 10, 2011, the BZA elected to not consider the application of Corcoran Gallery of Art for a modification to the parking relief request as a minor modification, and decided that a public hearing was warranted. Because this case has received extensive review, the ANC has already voted to support the request, and the hearing is intended to be of limited scope, OP recommends that the hearing be held as expeditiously as possible to allow this important project to proceed. Thank you.

Have a good day.
