119 Rhode Island Ave., NE.
Washington, DC 20002

To whom it may concern:

This letter is in support for the car port which David Perkins has built in the rear of his home where a garage once stood. The car port is a great improvement to the neighborhood and the alley.

In the past years, David's rear concrete walls were used by school children to sit on while watching others gamble and do drugs. I have gotten calls from the community with concerns about the presence of strangers in the alley gambling, smoking drugs and keeping loud noise.

Calls were constantly being made to 5D, in effort to correct the problem. Now that the walls are not easily accessible, I am sure that this summer will be a better walking environment than it's been in the past.

After speaking with the surrounding neighbors, they seem to be pleased that he has taken the initiative to creating a wonderful car port. This keeps the neighbors from walking past groups of people who do not live in the area during the wrong thing.

Therefore, it is important to me and many other neighbors that his car port be allowed to stay.

Commissioner Farmer-Allen
