To whom it may concern

I own 1210 28th St NW We share the alley behind 2805 M St I have no objection to the proposed use and actually very much like the concept, however, if you are going to allow them to use it as a restaurant, I would ask that you STRICTLY condition the establishment on not using the alley to store trash or trash cans and it is a public alley The alley is currently used to store trash cans for the restaurants on M Street and there is a rat problem as a result. This problem has come and gone over the years but I think it is imperative to take a harsh stance regarding this matter

Thank you,

Michael Goldman
