

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

This document and the attached exhibits provide a justification for the proposal of New Cingular Wireless PCS LLC d/b/a AT&T Mobility LLC ("AT&T" or the "Applicant"). This Justification Statement also provides a brief explanation as to how and why this proposal conforms with the applicable performance standards and design criteria of the District of Columbia Zoning Ordinance (the "Ordinance").

AT&T seeks a Special Exception for a Personal Wireless Service Facility as that term is defined in Chapter 27 of the Ordinance. The proposed Facility will consist of a 128' tall (lightpole) monopole, antennas and a related equipment shelter and cabinets (the "Facility") on a Residential (R-4) zoned property located at 4301 13th Street, Washington, DC 20011 (the "Site"). Personal Wireless Service Facilities are permitted in an R-4 zoning district as stated in Chapter 2713.2 of the Ordinance through Special Exception. Monopoles associated with such facilities are subject to performance standards described in §§ 2700-2701-2708-27011-2712-2713 and 2715 of the Ordinance. As indicated on the site plan, RF coverage plots, photo simulations and other exhibits provided with its application, AT&T's proposal is consistent with a majority of the applicable performance standards and design criteria and is necessary in order for AT&T to provide the needed wireless services.

AT&T's Goals and Existing Coverage Gap

AT&T is a Federal Communications Commission ("FCC") licensed provider of wireless Personal Communication Services ("PCS") throughout the Washington DC metropolitan area. AT&T is seeking to develop and improve its wireless services in Washington DC and the proposed Facility is a necessary component of AT&T's network. AT&T provides, as **Exhibit A1**, a propagation map depicting its wireless coverage in the area around the proposed Site with the proposed Facility on-air. The Site that is the subject of this application is noted on the map as "Proposed Site" and is identified with a red cross. **Exhibit A2** depicts the current coverage without the proposed site.

The objective of this site is to provide in building coverage and capacity in the commercial and residential areas of Petworth and Crestwood. This site will cater traffic from the commuters along George Avenue, Kansas Avenue and Iowa Avenue. This site will also provide contiguous coverage between existing Paramount and Grace Lutheran Church. This site will also enhance in-building coverage in the surrounding areas and communities. The proposed location for the Facility will allow AT&T to effectively and efficiently improve emergency and non-emergency wireless services to those who live, work or travel through this portion of Washington DC.

AT&T's Proposed Facility

AT&T seeks a Special Exception to allow installation and operation of an unmanned, wireless telecommunications facility. This Facility will consist of twelve (12) panel antennas installed on a

BOARD OF ZONING ADJUSTMENT

District of Columbia

CASE NO.

3324 18th St. NW, Washington D.C., 20010

128-foot tall lightpole. The antennas will each measure 75.5"H x 11.8"W x 6"D. Their centerline will be approximately 120' above ground level. The majority of the proposed equipment cabinets will be placed in a 11'-5"W x 20'-1"L x 10'-1/2"H equipment shelter on a concrete pad near the base of the lightpole as shown on the attached Site Plan. Outside of the proposed equipment shelter is a utility frame and telecommunications cabinet. The entire facility will be within a 825 square foot (25' x 33') compound surrounded and secured by an 8' tall fence. The Facility is unmanned and will require one service/maintenance call per month in an SUV.

Selection of the Subject Property

When AT&T has a need for coverage, it first seeks to co-locate antennas onto or within an existing structure. There were no existing structures within the area surrounding the proposed site that would allow AT&T to co-locate antennas in such a way as to meet its coverage objectives. The alternate locations were considered and ruled out:

New Southern Rock Church, 750 Buchanan St. NW: No landlord interest.

Clark Elementary School, 4501 7th St. NW: Existing Tower/Flag Pole is at capacity.

St. Gabriel Church, 26 Grant Circle NW: No landlord interest.

The Residences of Georgia Ave, 4100 Georgia Ave. NW: RF rejected this candidate.

The height of 128' is the minimum height required to achieve the necessary coverage. Each site that AT&T constructs is designed specific to the location and needs of the community. Prior to submitting a Petition for Special Exception, AT&T conducts propagation tests. Propagation tests use software to predict height and coverage needs based on information like topography, tree cover, proximity to existing sites, etc. This radio frequency propagation information is evaluated and analyzed, along with other technical data to predict how much coverage will be provided at various proposed heights. AT&T's engineers evaluate this data and, in the case of the proposed Facility, the result of the tests showed that a 128' pole would be required to provide the needed amount of coverage. In addition, this 128' lightpole will provide co-location opportunities for two (2) future carriers.

Impact

The Facility will have no impact on air quality, water quality, radiation exposure, light pollution, noise pollution, or traffic congestion or circulation. The antennas emit no noise, light or odors. The Facility will typically receive just one service/maintenance call per month by personnel in an SUV. Therefore, it will have no discernable traffic impact. AT&T operates in the 1950 - 1965 MHz band (the PCS B band) as licensed by the Federal communications Commission ("FCC") (a copy of the Applicant's FCC license is attached as **Exhibit B**) and it operates its equipment in full compliance with FCC rules and regulations.

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

Visual Impact

AT&T conducted a visual impact survey by raising a large orange weather balloon to 128' - the height of the proposed lightpole. AT&T's engineers drove the area and took pictures from numerous perspectives in the areas around the Site. If the balloon was visible from a location, the engineers created a photosimulation, which includes a scaled 128' lightpole digitally superimposed onto the photograph in place of the balloon. A map showing the locations of the photographs and the corresponding photographs and photosimulations are attached as Exhibit C.

Statement of Compliance

The information in this package and attached to this package provide support to show that AT&T's proposal meets the applicable performance standards and design criteria described in the Ordinance, as set forth below:

Compliance with Chapter 27 (Telecommunications Ordinance)

2700 PURPOSE

2700.1 The purposes of the regulation of antennas, antenna towers, and monopoles as a particular type of structure shall be as follows:

- (a) The Zoning Commission has determined that certain antennas, antenna towers, and monopoles because of their size, shape, design, construction, or location, may affect the welfare or safety of the population and may detract from the streetscape, landscape, skyline, scenic beauty, or aesthetic interests of Washington, D.C., and its role as the Nation's Capital;
- (b) The Zoning Regulations therefore regulate the size, height, construction, design, and location of antennas, antenna towers, and monopoles which have the greatest potential for adverse impact on the health, safety, and welfare of the population, and on neighborhood quality, and those which have the greatest potential for adverse impact on the scenic beauty of the Nation's Capital and the national monuments; and
- (c) The principal types of antennas, antenna towers, and monopoles regulated are those that, because of their shape, size, or quantity, potentially have the greatest visual impact and include, by example, large satellite earth station antennas, certain microwave terrestrial antennas,

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

monopoles, and antenna towers.

AT&T's Response: *AT&T has designed the lightpole to have minimal visual impact.*

- 2700.2 Consistent with these purposes, the construction of new towers or monopoles shall only be permitted subject to certain placement and construction standards.

AT&T's Response: *AT&T understands and has designed the proposed Site according to the referenced standards.*

2701 CERTIFICATION OF FCC COMPLIANCE FOR TRANSMITTING ANTENNAS.

- 2701.1 No application for a building permit for a transmitting antenna may be considered completed unless it is accompanied by a certification evidencing that the proposed transmitting antenna will comply with the radio frequency ("RF") radiation guidelines adopted by the Federal Communications Commission and the health and safety regulations adopted by the Occupational Safety and Health Administration.

AT&T's Response: *AT&T will comply with the FCC-mandated Maximum Permissible Exposure ("MPE") limits for RF emissions.*

- 2701.2 The certification shall be signed by a licensed engineer qualified in RF engineering and shall include the following required information:
- (a) The maximum RF radiation to be generated by the proposed antenna or antennas;

AT&T's Response: *AT&T will comply*

- (b) The means used to determine the RF levels;

AT&T's Response: *AT&T will comply*

- (c) The exact legal name, address of principal place of business, and telephone number of the applicant, certifying engineer, and property owner; and

AT&T's Response: *AT&T will comply*

- (d) A site plan, and roof plan if applicable, drawn to scale showing the location of

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

the proposed antennas and all existing antennas on the site, roof, tower, or monopole.

AT&T's Response: A site plan is included with this application.

2708 ANTENNA MOUNTED ON ANTENNA TOWERS AND MONOPOLES

2708.1 Antennas may be mounted as a matter of right on an antenna tower or monopole that:

(a) Is located in a General Industry (M) Zone District;

AT&T's Response: N/A

(b) Was approved by, and constructed in accordance, with an order of the Board of Zoning Adjustment; or

AT&T's Response: N/A

(c) Was constructed in accordance with a building permit issued prior to December 21, 2007.

AT&T's Response: N/A

2708.2 An antenna shall not be mounted on an antenna tower or monopole if, as a result of its installation:

(a) The size of the antenna tower or monopole is increased; or

AT&T's Response: AT&T is submitting an SE.

(b) The appearance of the antenna tower or monopole is changed in a manner that adversely impacts the surrounding area.

AT&T's Response: AT&T is submitting an SE.

2708.3 A transmitting antenna shall not be placed lower than fifty feet (50 ft.) above the base of the antenna tower or monopole.

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

AT&T's Response: AT&T will comply – the RAD centers of the antenna will be at 120' above the ground.

- 2708.4 An antenna proposed to be mounted on an antenna tower or monopole that does not comply with the above requirements may be permitted through the special exception process set forth in § 2712.

AT&T's Response: None required – submitting an SE according to §2712.

2711 OFFICE OF PLANNING REPORT

- 2711.1 The Zoning Administrator shall not take final action on an application to permit an antenna tower, a monopole, or an antenna not exempted by § 2707 until a report is received from the Office of Planning or thirty (30) days have passed since the application was submitted to the director of the Office of Planning, whichever occurs first.

AT&T's Response: None required.

- 2711.2 The Director of the Office of Planning and the Zoning Administrator may agree to lengthen the time period indicated in § 2711.1, but in no event shall the review period exceed sixty (60) days.

AT&T's Response: None required.

- 2711.3 The report of the Office of Planning shall provide specific criteria and information sufficient to enable the Zoning Administrator to determine whether the antenna complies with the applicable requirements of this chapter.

AT&T's Response: None required.

2712 ANTENNAS SUBJECT TO BZA APPROVAL – GENERAL

- 2712.1 An application for special exception approval shall include the following written and graphic documentation:

- (a) A map of area to be served by the new antenna;

AT&T's Response: AT&T will comply, refer to **exhibit A1**.

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

- (b) A map and explanation of the area being inadequately served that necessitates installation of the proposed antenna;

AT&T's Response: Please see exhibit A2.

- (c) A map indicating the location of any other antennas and related facility sites providing service by the applicant, and any antenna tower or monopole of any provider, within a two mile radius, including public space, of the proposed antenna site, with identified heights above grade;

AT&T's Response: Please see *Exhibit D*.

- (d) A site, and roof plan if applicable, showing all structures and antennas on site;

AT&T's Response: Please refer to the site plan included with this submission.

- (e) Elevation drawings of the structure and proposed antennas from all four directions;

AT&T's Response: Please refer to the site plan included with this submission

- (f) A picture of the proposed antenna;

AT&T's Response: Please see attached specification sheet as *Exhibit E*.

- (g) The total mounted height of the antenna relative to the tops of surrounding trees as they presently exist within one-quarter (1/4) mile of the proposed location; and

AT&T's Response: AT&T's engineers approximate the tree line to be 45'

- (h) Other information as may be necessary for impact assessment of the antenna.

AT&T's Response: AT&T will submit any additional items upon request.

2712.2 In addition to any other conditions deemed necessary to mitigate potential adverse impacts, the Board may impose conditions pertaining to screening, buffering, lighting, or other matter necessary to protect adjacent and nearby property and may require the removal of any on-site non-conforming,

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification

3324 18th St. NW, Washington D.C., 20010

inoperable, or unauthorized antenna.

AT&T's Response: *None required.*

2713 ANTENNA TOWERS AND MONOPOLES SUBJECT TO BZA
APPROVAL

2713.1 A monopole shall be permitted if approved by the Board of Zoning Adjustment in accordance with § 3104 of this title, subject to the provisions of this section, in the zone districts specified in § 2713.2.

AT&T's Response: *None required.*

2713.2 A monopole may be permitted as a special exception use in the following zone districts:

- (a) R, residence districts;
- (b) C-1 through C-4 commercial districts; (c)
 SP, special purpose districts;
- (d) CM, commercial-light manufacturing districts; (e)
 CR, mixed-use district; and
- (f) W, waterfront district.

AT&T's Response: *AT&T is proposing the Facility in an R-4 district.*

2713.3 An antenna tower, either alone or in conjunction with a studio, or the erection, alteration, or use of buildings for transmission or reception equipment on the same lot, shall be permitted if approved by the Board of Zoning Adjustment in accordance with § 3104 of this title and subject to the provisions of this section, in the zone districts specified in § 2713.4.

An antenna tower may be permitted as a special exception use in the following zone districts:

- (a) C-2 through C-4 commercial districts;

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

- (b) SP, special purpose districts;
- (c) CM, commercial-light manufacturing districts;
- (d) CR, mixed use district; and
- (e) W, waterfront districts.

AT&T's Response: N/A

2713.5 The location, height, and other characteristics of an antenna tower or monopole shall be:

- (a) Consistent with the purpose of this chapter;

AT&T's Response: AT&T has designed the Facility with the provisions of this chapter in mind.

- (b) Designed and available for collocation by other service providers;

AT&T's Response: No space for future colocators

- (c) Located so the visual impacts are minimized to the greatest practical extent, from neighboring property and adjacent public space, or appropriately screened by landscaping or other techniques to minimize the visibility of the antenna tower or monopole; and

AT&T's Response: The Facility is proposed to be located on the perimeter of the football field near the existing treeline, amid poles of similar design and at the lowest height possible to fill the coverage gap.

- (c) Designed and constructed to preserve existing trees to the greatest practical extent.

AT&T's Response: AT&T is not proposing to remove any trees.

2713.6 If an applicant is unable to meet the requirements of § 3104, the Board of Zoning Adjustment may nevertheless grant the application if the applicant demonstrates that:

- (a) There is a significant gap in wireless service;

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

AT&T's Response: Please see *Exhibit A2*.

- (b) The proposed antenna tower or monopole will fill this gap;

AT&T's Response: Please see *Exhibit A1*.

- (c) No other mounting options are available;

AT&T's Response: AT&T could not locate any existing tall structures appropriate for collocation.

- (c) The site is the only location from which the gap can be filled or, if other sites are available, the antenna tower or monopole at the proposed location will generate the least adverse impacts;

AT&T's Response: Monopole will be designed as a lightpole and will house stadium lights at their existing height.

- (d) That the height and other physical design characteristics of the proposed antenna tower or monopole do not exceed those which are minimally necessary to fill the gap in wireless service;

AT&T's Response: 128' is the minimum height to achieve the desired coverage.

- (e) That it is using the least intrusive means to provide wireless service necessary to fill the gap in such service; and

AT&T's Response: Replacing the lightpole will avoid the need for an additional structure.

- (f) That its proposed antenna tower and monopole, even when supporting all possible collocators, will be in full compliance with Federal Communication Commission cumulative and individual RF emission levels.

AT&T's Response: Please see response to §2701.1.

2713.7 Any antenna tower or monopole with a proposed height in excess of that permitted by the Act of June 1, 1910 (36 Stat. 452), as amended, shall not be permitted, unless the height is approved by the Mayor or his or her designee.

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

AT&T's Response: N/A

- 2713.8 An antenna tower or monopole shall be set back a minimum horizontal distance equal to its total height as measured from the ground, from any residentially developed or zoned property.

AT&T's Response: N/A

- 2713.9 Each part of an antenna tower or monopole shall be removed from each lot line the greater of the following:

- (a) Twenty feet (20 ft.); or
- (b) A distance of at least one-third (1/3) of the total constructed height.

AT&T's Response: N/A

- 2713.10 The Board of Zoning Adjustment shall submit the application to the D.C. Office of Planning for review and report.

AT&T's Response: None required.

- 2713.11 The applicant shall provide written and/or graphic documentation of the following:

- (a) The area to be served by the proposed new antenna tower or monopole;

AT&T's Response: Please see *exhibit A1*.

- (b) The area being inadequately served;

AT&T's Response: Please see *exhibit A2*.

- (c) A map indicating the location of any other antenna or related facility sites providing service by the applicant within a two mile radius, including public space, of the proposed site;

AT&T's Response: Please see map of surrounding, on-air sites with which the proposed site will hand-off – *Exhibit D*.

Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

- (d) Other towers or monopoles within a two-mile radius of the proposed site with identified heights above grade;

AT&T's Response: Please see *Exhibit D*.

- (e) An explanation of why the applicant cannot collocate on an existing tower or monopole;

AT&T's Response: Please see list of alternate sites considered on page 2.

- (f) A written statement agreeing to permit the collocation by other service providers on a commercial basis on an antenna tower;

AT&T's Response: AT&T agrees to provide space on the replacement lightpole for future colocators.

- (g) A written statement agreeing to design a proposed monopole for at least three (3) antenna arrays and to make the array space available on a commercial basis for collocation by any telecommunications service provider whenever unused by the initial telecommunications service provider(s);

AT&T's Response: AT&T will provide RAD centers to other interested future colocators.

- (h) The topographic conditions of the area to be served;

AT&T's Response: Please refer to the site plan included with this submission.

- (i) The relative height of the antenna tower or monopole to the tops of surrounding trees within one-quarter mile radius of the proposed site as they presently exist;

AT&T's Response: The treeline surrounding the Site averages 45'.

- (j) The proposed appearance of the antenna tower or monopole, including exterior finish;

AT&T's Response: Please see photosims included as part of this SE submission package – *Exhibit C*.

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

- (k) A maintenance plan explaining how the property manager will control ice build-up, falling ice, and potential falling debris; the plan should also address how inoperative antennas will be removed; and

AT&T's Response: *AT&T agrees to be responsible for all maintenance and removal of equipment.*

- (l) Other information as may be necessary for impact assessment of the antenna tower or monopole.

AT&T's Response: *AT&T will comply.*

- 2713.12 In addition to any other conditions deemed necessary to mitigate potential adverse impacts, the Board of Zoning Adjustment may impose conditions relating to operation, location, screening, collocation, or other requirements as it shall deem necessary to protect adjacent and nearby property, neighborhood character, and the image of the city as the nation's capital, consistent with the general purpose and intent of this chapter and may require the removal of any on-site inoperable or unauthorized antenna as a condition to the approval.

AT&T's Response: *None required.*

- 2713.13 No signs of any kind, including advertisements, may be placed on an antenna tower or monopole, its equipment cabinet, or its equipment shelter, unless necessary for the safety of the public.

AT&T's Response: *No signs are proposed on-site.*

2715 EQUIPMENT CABINET OR SHELTER

- 2715.1 If an antenna equipment cabinet or shelter is provided on the ground, it shall be subject to the following:
- (a) It shall be regulated as an accessory building subject to any applicable criteria within each zone district; and
 - (b) It shall harmonize with the main structure in architectural character, material, and color.

New Cingular Wireless PCS, LLC d/b/a AT&T Mobility
Petition for a Special Exception
Statement of Justification
Washington D.C. Office of Zoning
3324 18th St. NW, Washington D.C., 20010

AT&T's Response: *The equipment shelter will be designed to match the aesthetics of the general area.*

2716 REMOVAL OF ANTENNAS, ANTENNA TOWERS MONOPOLES AND
RELATED EQUIPMENT

2716.1 Antennas, antenna towers, monopoles, equipment cabinets, or equipment shelters shall be removed at the expense of the property owner if they have not been used for a period of one year. A one-year extension may be granted by the Board of Zoning Adjustment to this requirement for good cause shown

AT&T's Response: *AT&T agrees to remove the Facility if the Site is unused for a period of one year.*
