Board of Zoning Adjustment

Government of the District of Columbia

Re Application of the Field School for a special
Exception to increase enrollment and teachers

I live at 4401 W Street, NW Foxhall and W Street is a dangerous intersection For me to turn left onto foxhall or to continue on W Street I must take my life into my hands First the vision is not sufficient of cars on Foxhall and many are going too fast for my getting safely across or onto Foxhall I have had many near accidents and have been involved in one Any more traffic on Foxhall can only result in more accidents and more delays Some mornings I have had to wait over 5 minutes to get out of my street More students, more teachers, and more staff can only increase the traffic and the danger

The Field School started planning for its growth even before getting zoning permission Does the neighborhood have to put up with even more private students coming to our area from other sections of the District? Can the School survive if more students are not to be allowed? If that be the case, I would withdraw my objection

Jessie M Harris
