RECEIVED
D.C. OFFICE OF ZONING

2013 AUG 30 AM 12:15

TO: Board of Zoning Adjustment (BZA)

FROM:

James Haskins
2414 12th Street NE
Washington, DC 20018

SUBJECT: Israel Baptist Church BZA Application Number: 18449

I received notification from Ms. Regina James, Advisory Neighborhood Commissioner (ANC) 5B03/5C05 concerning this matter. She informed me that I had been named by the church as "not directly impacted by the church's actions."

My home is located directly across the street from the proposed construction site. I believe that I will be heavily impacted by every aspect of the project:

- A. Preparing the site for construction
- B. Construction of the building
- C. Workers and machinery on the site and in the community, and
- D. Increase traffic throughout the community

Generally, parking is a problem throughout the District of Columbia and our community is no exception. This section of 12th Street is surrounded by three large churches with insufficient parking for their members. Whenever one or all have activities, our little section of 12th Street is overwhelmed with church members parking and travelling through the community.

Based on all the quality of life challenges presented by the church's construction project, none would be more permanent than opening the street up to traffic in and out of a parking lot. I have opposed this project in past ANC meeting at the church and never spoke personally with an agent from Israel Baptist Church concerning this matter.

Thank you for your consideration.

Sincerely,

James Haskins
