Re: Support of Walmart, Case 18460

Dear Board,

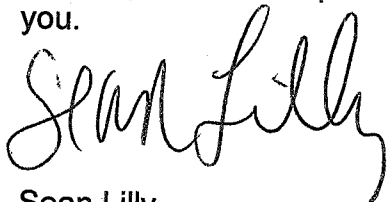

I am in support of the Walmart for our Ward 4 community.

Ward 4 has been overlooked and we desperately need the money and the diversity that a Walmart will bring. The stores which are close to my home is a Popeye's, a tire repair place, liquor stores, a CVS, barber shop. I have to drive to Maryland to get the diversity of shopping in one location. It's not fair.

I have a wife and three kids. Why should I have to break up my shopping because several smaller stores can't meet the needs for my shopping experience? Do I really have to by \$24 dollar diapers from CVS when Walmart sells them for \$17?

I needed a new patio set- I had to drive to Anne Arundel Mills to shop. I wanted a gift for my daughter's Birthday- the carryout and CVS were of no help. I can't understand how eliminating this project helps the fact that an abandoned car dealership sat for 3 years with no interest. I can't even purchase a pair of pants in our neighborhood. It's not right.

Please provide an expedited hearing to Walmart to get this building complete. Thank you.

Sean Lilly
Ward 4 Resident
