Dear Members of the Board:

I respectfully urge your support of the above-referenced zoning application, which seeks approval to permit the continued use of the property at 1232 9th Street, NW, as a pet grooming, pet boarding and animal shelter business.

Wagtime is a great local business and its operations do not adversely impact the properties or businesses in its immediate vicinity. Based on the foregoing, we request that the Board approve Wagtime's zoning application so it may continue doing business at the subject property and remain an asset to the local neighborhood.

Sincerely,

To Whom It May Concern:

I write this letter in recommendation of Wagtime and their owners Lisa Schreiber and Ofer Khal. I have been a customer of Wagtime for more than three years now, and I have found Wagtime to be one of the few places left where great customer service is always given and everyone seems to truly care about their clientele.

I brought my dog to Wagtime as a last resort before giving him up. He was adopted from the DC shelter, and after a few days it became apparent why. He had no training, was attacking people who got too close to him, and had unrelentless energy. After months on my own failing to bring him under control, I told myself that daycare was the last attempt before he went back to the shelter.

Of all the sites we visited, Wagtime was by far the cleanest, largest, and friendliest. Wagtime worked with me to come up with a schedule for walks and daycare within my affordability range, offered free advice on training, recommendations on foods and products that were best suited to our situation, and in the end helped my dog become a perfect example of a behaved pet.

They are also excellent pillars to the community. They seem to really know the area and people who live around their current site on 9th St, NW. They offer assistance to rescue organizations by fostering dogs in between homes, take dogs who are too old to adopt and keep them, and I have only heard barking from outside the building 2 times in the 3 years I have been using their services daily.

In fact, while employed as the Chief Information Officer by DC Parks and Recreation; I was faced with the challenge of bringing free DC Wi-Fi to a new stand-alone park on 10th street. I asked Lisa and Ofer if I could attach a router to their building for this purpose, and they unreservedly said yes.

I strongly feel that any neighborhood that has a Wagtime in it would greatly benefit both economically and socially. Merely the foot traffic alone one of their store fronts would bring to an area would create enormous additional opportunities for commercial properties that otherwise might not see it. I know that I never walked near 9th and N St NW until I became a Wagtime customer, and now I see loads of local small businesses popping up all along that street.

Sincerely;

Edward Leonard

Dear Members of the Board:

I respectfully urge your support of the above-referenced zoning application, which seeks approval to permit the continued use of the property at 1232 9th Street, NW, as a pet grooming, pet boarding and animal shelter business.

Based on the foregoing, we request that the Board approve Wagtime's zoning application so it may continue doing business at the subject property and remain an asset to the local neighborhood.

Sincerely,

In addition, Wagtime is an outstanding community partner. I have first-hand knowledge of their compassion for animals and their unwavering commitment to saving lives. Their charitable services provide critical shelter when rescue leagues have no where else to turn. They also generously support animal-centric fund-raising initiatives, including improvements to local dog parks. It's in the best interest of the neighborhood to continue supporting businesses like Wagtime. They do so much for those in need and in the process help build a stronger community.

Based on the foregoing, we request that the Board approve Wagtime's zoning application so it may continue doing business at the subject property and remain an asset to the local neighborhood.
