July 2012

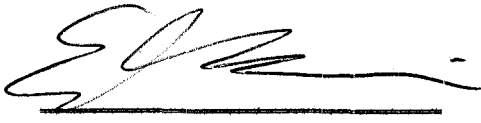

To Whom It May Concern:

We are neighbors of David Sohn and Alison Buist, who reside at 2926 Newark Street, NW. Our properties are either directly adjacent to theirs or are situated such that there are some possible sight lines in the direction of the rear of their house or property.

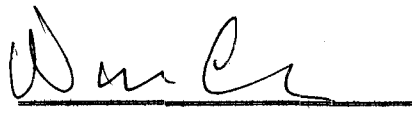

We have reviewed the plans drawn up by architect Dickson Carroll for renovating and expanding the rear deck at 2926 Newark. We believe those plans will not have any negative impact with respect to the light, view, or any other aspect of our use and enjoyment of our properties. We therefore have no objection to the project moving forward as designed.

Sincerely yours,

Jennifer Anderson
