Washington, DC 20001

March 19, 2013

To the DC Zoning Commission.

The purpose of this letter is to express Victory Youth Center, Inc's support for the YMCA's proposal to use space in our facility to operate a before and after-care program.

Victory Youth Center strives to help satisfy greater Washington's need for a quality, multipurpose, recreational and educational center in which to hold youth activities during the day, after school, and on evenings and weekends. The YMCA's potential presence in our center would support this goal by providing before and after-care programming that can positively impact the lives of children and families of Ward 8.

With the city's highest concentration of children living in poverty, this community's families face several daily economic and social challenges, the YMCA's use of our facility would further the Victory Youth Center's goal to provide a location for quality, subsidized youth programs, offered to those in the community who need it most.

For example, last year, the YMCA successfully partnered with the Christ Child Society in running a camp at the Victory Youth Center called "Sophisticated Ladies." The camp was very well-received among children as well as their parents. Therefore, the Victory Youth Center is confident the YMCA will continue to provide families of Ward 8 with a fun, enriching, and affordable program. Moreover, the center has the adequate space necessary to satisfy a higher number of program participants, and can fulfill the YMCA's need for increased space for the before and after-care program.

Based on our past relations with the YMCA, the Victory Youth Center supports the YMCA's proposal to use space in the center for their before and after-care program. Please contact me at (202)683-1723 or ImpedugliaC@adw.org with any questions or concerns.

Sincerely,

Carlo Impeduglia

Victory Youth Center Manager
