

Petition in Support of Special Exception, Application No 18520

I have no objection to Application No. 18520, which is a request for a special exception for a front porch filed by our neighbors, Susan and Robert Okun. We have reviewed the Okun's application, and based on that review, we do not believe that the planned front porch will negatively affect the use and enjoyment of our home. To the contrary, we believe that the porch addition will enhance the neighborhood streetscape, contribute to the fabric of our neighborhood, and remain consistent with the intent and purpose of the District's zoning regulations
