

PETITION TO THE BOARD OF ZONING ADJUSTMENT, DISTRICT OF COLUMBIA

We the undersigned, property owners in the Palisades, hereby oppose the proposal by Hashim Hassan, BZA application 18553, asking for approval to tear down the single family house at 4529 MacArthur Blvd NW and replace it with new construction of a four-unit apartment. We oppose this proposal for the following reasons: (1) The total height of the building will rise 43 feet above the sidewalk level, higher than any other structure in the area; (2) the modern architectural style intrudes on the harmony of neighborhood design; (3) more units will increase traffic; (4) the MacArthur front setback crowds the corner bus stop with stairs; (5) it will reduce the value of adjoining properties by limiting green space and obstructing light and air.

We urge the BZA to recognize the balanced character of our neighborhood and retain the single family usage of this area.

PETITION TO THE BOARD OF ZONING ADJUSTMENT, DISTRICT OF COLUMBIA

We the undersigned, property owners in the Palisades, hereby oppose the proposal by Hashim Hassan, BZA application 18553, asking for approval to tear down the single family house at 4529 MacArthur Blvd NW and replace it with new construction of a four-unit apartment. We oppose this proposal for the following reasons: (1) The total height of the building will rise 43 feet above the sidewalk level, higher than any other structure in the area; (2) the modern architectural style intrudes on the harmony of neighborhood design; (3) more units will increase traffic; (4) the MacArthur front setback crowds the corner bus stop with stairs; (5) it will reduce the value of adjoining properties by limiting green space and obstructing light and air.

We urge the BZA to recognize the balanced character of our neighborhood and retain the single family usage of this lot.
