Master Equipment™ Superior Stainless Steel Tubs

- Rust resistant, 14-gauge, 304-type stainless steel
- Designed for strength and durability
- Best quality and price in the industry

Made of 14-gauge, 304-type stainless steel, this high-quality tub is extra durable with a brushed finish for a distinctive look. Rust-resistant, the inside of the tub measures 48"L x 24"W x 15"D; the outside measures 50½"L x 27¼"W x 58"H. A stainless steel ramp with a grey non-slip rubber covering makes for easy pet entry/exit. Ramp can be stored under tub for easy access. Rubber sealant around the seams of the backplash and door prevents water leakage. Available in either left or right side drain options. This tub features three ¾" plumbing holes, predrilled drain hole, and a long u-shaped grooming bar bolted to the backplash for easy grooming loop attachment. Includes a removable tub rack that can be set at a higher level to accommodate grooming smaller dogs. **Best Buy!**

Back saving ramp provides

Tub includes these great add-ons FREE

Tub Rack prevents scratching and keeps pets above tub.

Rubber-lined Shampoo Rack holds over tub edge (Shampoos not included).

Made with premium grade 16-gauge stainless steel

Master Equipment™ Everyday Pro Deluxe Tubs

- New & improved tub design offers incredible value
- Stronger stainless steel, additional rivets, and high-quality silicone for long lasting use

Tub basin is made of 16-gauge, 304-type stainless steel that won't bend under pressure. The rest of the tub including the cabinet is 19-gauge stainless steel. Additional rivets along the bottom of the tub provide extra support for bathing heavy pets. The mold-resistant silicone caulking provides a long-lasting, watertight seal. Each tub features three 1" diameter plumbing holes (fit for 4" or 8" faucet hookups), a predrilled 3/4" drain hole, and four u-shaped backplash bolts. Includes a **FREE** tub rack and shampoo rack. Coordinating overhead **Cabinet** provides storage space for shampoos, towels, and more. **Best Buy!**

Double K™ ChallengAir™ 9000II Stand Dryers

Powerful motor has increased torque to produce airflow of 260 CFM to dry dogs faster. Side-mounted design offers better balance and increased stability. Adjustable spring-loaded stand adjusts from 45"-59". Air intake is positioned at top of dryer to direct noise away from groomer's ears. Baffle on top further

deadens noise. Features include two heat settings that warm air up to 56° above room temperature and easy-to-clean, pop-off filters. Two-year warranty.

Double K™ ChallengAir™ 850 XL™ Stand Dryers 2-Speed

Dual air outlets allow you to perform two functions simultaneously; use the fixed arm for one job while you use the flexible hose for another. Made of impact-resistant plastic. Warms air up to 45° above room

temperature. Includes two regular drying nozzles, two 6' hoses, long hair drying nozzle, diffuser and two cage attachments. Stand adjusts from 39" to 57". Two-year warranty.

Double K™ ChallengAir™ 850 XL™ Stand Dryers Variable Speed

A variable speed dryer with dual air outlets that allow you to perform two functions simultaneously; use the fixed arm for one job while you use the flexible hose for another. Made of impact-resistant plastic. Warms air up to 45° above

room temperature. Variable speed control. Includes two regular drying nozzles, two 6' hoses, a long-hair drying nozzle, a diffuser, and two cage attachments. Stand adjusts from 39" to 57". Two-year warranty.

Pet Odor Removal

Ozone generators for permanent and easy elimination of pet odors without artificial fragrances

The OdorFree Trial

30 Day Money Back Guarantee

People love their pets but all too often they find themselves living with the odors they generate in homes, offices as well as in cars and RVs. And pet odors get into the furniture, carpets, bedding and even cling to walls and ceilings. So the entire area where a pet lives is normally permeated with odors. Pet odors inside vehicles can be even stronger because of the smaller, enclosed space. And these odors are much more noticeable by guests who are not pet owners.

Treating the space with ozone (O3) is very effective in pet odor removal because it attacks these odors at their source.

Commercial cleaning companies, veterinary offices, homes, apartments, and even vehicles can all utilize ozone as a permanent pet odor eliminator. Ozone even works for the hardest odor removal of all: pet urine odor removal (Note: If urine has soaked deeply into the carpet padding, hardwood floors, and/or concrete, professional remediation may be required. Ozone is a good pet odor remover and will remove most pet odors, but cannot penetrate some materials).

How to Eliminate Pet Odor – For thorough pet odor removal, close off the area to be treated and place an OdorFree unit in the area. Remove all pets and vacate the space while the ozone generator runs for several hours (or longer depending on the severity of the odors). As the O3 circulates throughout the facility, it will oxidize pet odors wherever it contacts them. Because O3 is a very active molecule, it will follow the same path that the animal odors took, removing odors clinging to carpets, cabinets, furniture, and upholstery and even inside air conditioning ducts. Note: It is recommended that one window be left open about 3 inches to provide a constant source of fresh oxygen to the unit.

Allow at least one hour for the O3 to dissipate before allowing owners and pets to re-occupy the space. If pet odor has not been completely eliminated, repeat the ozone pet odor removal treatment again. As long as pets share the space, the treatment may need to be repeated again from time to time.

Free 2 Day Delivery 

OdorFree Villa 1000 – For interior spaces up to 4,000 sq/ft

The OdorFree Villa 1000 is our most popular model for pet odor removal. One reason is the convenient 1 to 12 hour timer. It is designed for spaces that are unoccupied for several hours or longer and need deep treatment, such as Houses, Apartments, Veterinary Offices, Garages, Large RVs, Rental Properties and other areas where pets reside.

The Villa 1000 has a variable ozone output control that will cover up to 4000 sq ft and a timer that can be set from 1 to 12 hours to automatically turn the unit off when the sanitizing is completed. In addition, a "Hold" selection on the timer allows for extended treatment (until it is manually turned off) in order to eliminate more deeply ingrained odors. This unit can also be used for smaller spaces if rapid odor removal is needed. [More details...](#)

5 YEAR

Free 2 Day Delivery 

I am a realtor and also manage rental property. We purchased the OdorFree to eliminate odors in the condominiums we rent near the University of Tennessee. It is amazing how effective the unit is at getting rid of smoke odor, pet odor, and just about anything else!

Dick Brower
Realty Executives
Knoxville, Tennessee

We run a doggie day care and the OdorFree really helps takes care of the odors. It is turned on after hours and makes our building smell so much better. This unit is so easy to operate and maintain.

Dennis Eaddy
Dogs Rule Day Care
Columbus OH

Buyer Beware
CLICK HERE

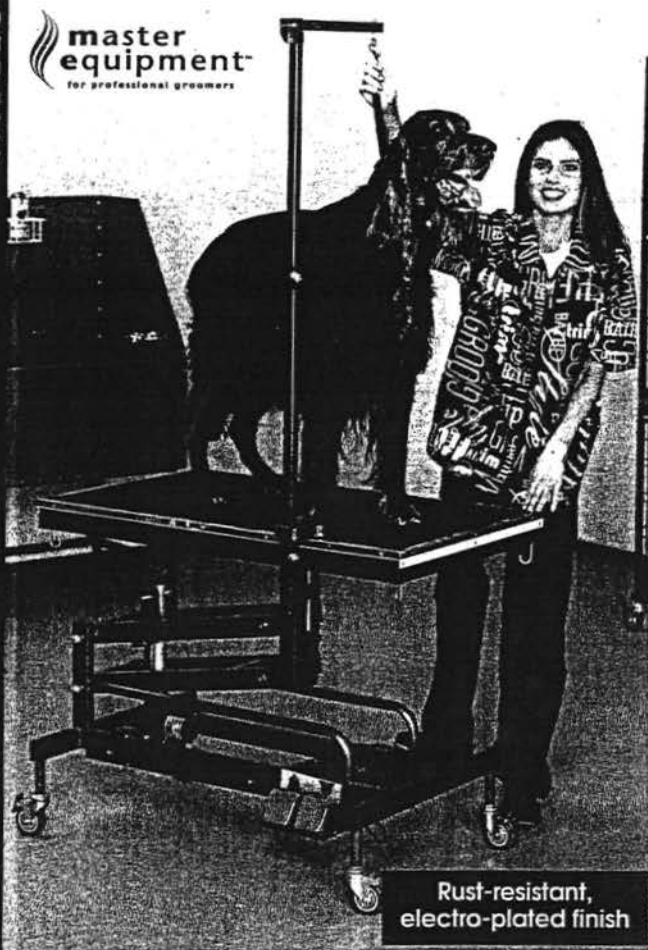

5 YEAR WARRANTY

My two field dogs are also pets and spend a lot of their time at the office. Sometimes they get wet going out for a run and the office accumulated a distinct dog odor. After running the OdorFree for five or six hours the first time, the dog odor was eliminated. Now on occasion, I set the timer as we leave, and the office maintains a fresh smell.
