

Work at 761 10th St SE

Pergola

The pergola that had already been approved will be moved from the south side of the property to the north side of the property. The pergola is being moved to create privacy for Mr. Jacksons approach from the garage to the home and to create privacy for the neighbor. The pergola is also being moved to facilitate the relocation of the door.

Door

The door is being moved also to create privacy for both Mr. Jackson and the neighbor.

Fence

The fence is being changed from wood to brick for low maintenance and aesthetic reasons.

Sliding Door

The sliding door is being added to open up that area of the house and allow more light into the room.

Window

We would like to change the window because the window which was approved does not allow for optimal use of the space in the kitchen in regards to cabinet layout.
