Petition to Advisory Neighborhood Commission 6C

Petition summary and background	This petition is made in response to Application Number 18673, Use Variance Application for 325 Maryland Ave., N.E., Washington, D.C. submitted by Michael and Sarah Henry on September 26, 2013.
Action petitioned for	Deny Application Number 18673. We, the undersigned, are concerned neighbors in the 300 block of Maryland Ave., N.E., Washington, D.C. and the adjacent blocks of 200 4th Street, N.E. and 300 Constitution Ave., N.E. We ask the Advisory Neighborhood Commission to advise the D.C. Zoning Board to <u>deny Application Number 18673</u> cited above in view of the opposition presented by us in this petition. We believe that granting this use variance invites the intrusion of non-residential interest groups and other commercial operations into our neighborhood. Based on evidence in this area, we are convinced that it would have an adverse effect on the quality of life in our neighborhood by increasing traffic, reducing available street parking, eroding the residential/neighborhood character of our diverse and vital inner city neighborhood, setting a dangerous precedence for further rezoning that could affect property values. It has taken many years for Capitol Hill neighborhoods to flourish and once again become great places to live. We don't want to lose that.
