Re: BZA Application No. 18676 – Mundo Verde Public Charter School

Dear Board Members,

I would like to express my support for Mundo Verde Public Charter School's request for a variance from zoning rules that would require 50 parking spots. The school has evaluated its parking needs and has determined that it needs far fewer. Without a variance, the school would have to sacrifice a part of its facility plans designed to best serve the needs of its students.

My wife and I have two children at Mundo Verde. We live in Northeast DC and currently commute to Mundo Verde by metro via the NoMa metro station. Once the school moves to its new location on P Street, we look forward to biking, scootering or walking.

Our aversion to commuting by car is prevalent within the Mundo Verde community which places great emphasis on environmental sustainability in and outside the classroom.

As a Mundo Verde parent and a resident of DC, I ask you to support Mundo Verde's request for a variance from parking requirements that are ill-suited for this school community.

Best regards,

Chris Mitchell
