MEMORANDUM

TO: District of Columbia Board of Zoning Adjustment
FROM: Samuel Zimbabwe *82*
District Department of Transportation (DDOT)
DATE: December 31, 2013
SUBJECT: BZA Case 18682 - Ballou Senior High School, 3401 4th Street SE

APPLICATION

The DC Department of General Services requests a variance pursuant to DCMR 11 Section 411.3 for relief from the requirement to build one mechanic unit enclosure in order to build multiple mechanical units for Ballou Senior High School, located at 3401 4th Street SE.

RECOMENDATION

DDOT has reviewed the Applicant's request and determined that, based on the information provided, this proposed project will have no adverse impacts on the travel conditions of the District's transportation network. An approved project may lead to more vehicular, transit, pedestrian, and bicycle trips. However, DDOT does not foresee additional impacts to the network. Thus, DDOT has no objection to approval of the requested special exception.

This review pertains only to zoning issues and does not consider potential impacts to District owned public space. DDOT's lack of objection to the zoning special exception should not be viewed as approval of public space elements. If any portion of the project has elements in the public space, the Applicant may be required to pursue a public space permit through DDOT's permitting process. The Applicant may refer to the DC Municipal Regulations and DDOT's Design and Engineering Manual for specific controls of public space. A summary can be found in the Public Realm Design Manual.
