Re BZA Case No. 18723: The Logic: 10th and V Streets, NW

Dear Chairman Jordan and Members of the Board,

The Applicant for the above-referenced case respectfully requests to amend our application to include one additional area of Special Exception relief. While the Applicant had verbal assurance from the Zoning Administrator that relief from Subsection 770.6 was not required, the Office of Planning has questioned that opinion. Therefore, out of an abundance of caution, the Applicant would like to include a request for relief from Subsection 770.6, governing roof structure setback requirements.

Roof Structure Setback (770.6) - Housing for mechanical equipment or a stairway or elevator penthouse shall be set back from all exterior walls at a distance at least equal to its height above the roof upon which it is located. In this case, the stair tower serving the new construction portion of the project is set back from the exterior of the property to a significant degree, but not from the walls of the addition a distance at least equal to its height.

Please find enclosed payment for the fee for the additional special exception relief, and revised form 135. The applicant is submitting an updated pre-hearing statement under separate cover, which revises the burden of proof statement in this matter to address the additional relief requested.

Thank you very much for your consideration.

Sincerely,

BOARD OF ZONING ADJUSTMENT
District of Columbia
