Chairman,
DC Board of Zoning Adjustment.

RE: case # 18765, and 18784
Pertaining to 3915, and 3919 Fulton St. NW

Dear Mr. Jordan,

I live on 39th st. , a few houses down from the planned development of condominiums at the corner of Fulton and 39th.

The developer, Mr. Prudhomme, has stated that he has a "RIGHT" to build a building of his choice.

He does. Rules are rules, and regulations are regulations.

I am not opposed to development, or change. The recent developments in DC have enhanced the vibrancy of our beloved city.

The many lovely, leafy, neighborhoods that exist all through the many wards of our city, give it a uniquely distinct character. I think DC is an unparalleled world class city!

The developments that have been the most effective are the ones that have tried to maintain the historic character of our residential neighborhoods, co-existing with new.

I believe our neighborhood used to be a Dairy Farm, where cattle were walked up from Georgetown, after arriving by barge:)

I am writing for your help in assisting us neighbors, within the rules and regulations available to your office, to influence Mr. Prudhomme to build a condominium that adds, rather than detracts, from the historic character of this small, but oh so beautiful, DC neighborhood.

Thank you, Singh
