February 3, 2014

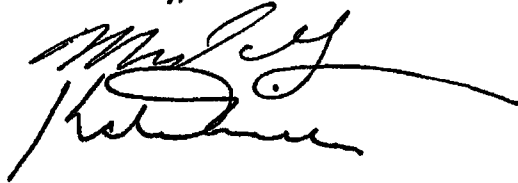

Dear Shad,

As we've discussed together, you are planning to renovate the rear parking & deck of your house. The renovation includes removing the existing wood deck and building a new one with a spiral stair & pergola.

Since we share a common property line, we wanted to formally put in writing that we feel the addition you have shown us will be more aesthetically appealing than the existing. We think the renovation will also increase the value of our property and those nearby.

If we can be of any further assistance while you move forward with the special exception process, please let us know. We wish you the best with the renovation.

Sincerely,

Mike and Kate Gilles
