DATE: June 3, 2014

SUBJECT: BZA Case No. 18774 – 2919 13th Street, N.W. (Square 2856, Lot 109)

APPLICATION

Pursuant to Title 11 DCMR §§3104.1 Robert Copyak (the Applicant) seeks a special exception to allow a two-story rear porch and the extension of the third floor to an existing one-family row dwelling and expansion of garage height (§223) not meeting the lot occupancy (§403), open court (§406) and nonconforming structure requirements (§§2001.3) in the R-4 District at premises 2919 13th Street, N.W. (Square 2856, Lot 109)

RECOMMENDATION

DDOT has reviewed the Applicant's request and determined based on the information provided, the proposal will have no adverse impacts on the District's transportation network. DDOT has no objection to the approval of the requested special exception.

This review pertains only to zoning issues and does not consider potential impacts to District owned public space. DDOT's lack of objection to the zoning special exception should not be viewed as an approval of public space elements. If any portion of the project has elements in the public space requiring approval, the Applicant is required to pursue a public space permit through DDOT's permitting process. The Applicant may refer to the District of Columbia Municipal Regulations and DDOT's Design and Engineering Manual for specific controls of public space. A summary can be found in DDOT's Public Realm Design Manual.
