June 13, 2014

Mr. Richard Nero, Jr.
Deputy Director of Operations
Board of Zoning Adjustment
441 - 4th Street, NW
Washington, DC 20001

Dear Mr. Nero:

I do not want to see an increase in the number of children at this facility. I am against any change in the current situation. I am therefore requesting the action by Cleotilde Kimmel/Manna Child Daycare via Application No. 18781 not take place. The address for the application is: 6524 8th Street, NW, Washington, DC 20012.

This has already caused adverse impact on the neighborhood and not let this action be allowed. This poses potential unsafe conditions due to the increase in traffic in the area. It will change the zoning of the neighborhood since this would no longer be residential but commercial.

Mrs. Kimmel has not been utilizing any parking allocated as indicated in the initial application and the traffic conditions have already changed. Although I am not within the 200 feet, I do not want to see an increase in the number of children and staff, it will be a greater burden and huge change.

Please do not allow an increase; it is already causing an adverse impact. It is completely out of character in the neighborhood. It would cause further parking obstruction. It would change the purpose of the neighborhood.

I do not want the Board of Zoning to grant such a request.

Sincerely,

Victoria S. Napier
