**Subject:** Opposition to parking variance request, case number 18785

Hello,

I am a homeowner located at 1219 Orren St NE and I oppose the requested parking variance by Ditto LLC to reduce the required parking spaces from 23 to 16. The Trinidad neighborhood is rapidly developing and as such parking is already at a premium on certain streets. Adding a proposed 45 unit condo building without adding adequate parking would put unnecessary additional strain on the residents in the neighborhood trying to park our vehicles. While I do not oppose the construction of additional housing, I do oppose the requested parking variance.

Thank you for your time.
