Subject: Case number 18785

Let this email serve as OPPOSITION to the parking variance proposed for the development at 1326 Florida Ave, by Ditto Residential LLC. Parking in the surrounding blocks of this building is challenging already, adding to it will create an unnecessary safety risk for both current residents - many of them older - as well as the future tenants of the new building

Please require Ditto Residential LLC to provide the current minimum zoning standard of 23 parking spaces for use by apartment residents

Thank you kindly,
Holly Malone
