Subject: OPPOSITION to parking variance request, case number 18785

Good day, I am a homeowner located on Orren Street NE, and I **strongly oppose the requested parking variance by Ditto LLC** reducing the required parking spaces from 23 to 16. Trinidad is developing at a rapid rate and parking is already tight to begin with. Adding the condo unit without adequate parking will put a strain on neighborhood residents trying to park our vehicles, several of whom are very elderly and need parking in close proximity to their households.

Thank you for your time,
