Subject: Support for case # 18785

To whom it may concern:

This letter is intended to support the proposed project by Ditto Residential, case # 18785. Ditto Residential has done a great job, in my opinion, of reaching out to and communicating with the residents of the blocks near the project.

While I understand that some of my neighbors are concerned about parking, I feel that Ditto has been very responsible in providing 16 parking spaces and bike storage options. I support the variance in parking spaces (from 23 to 16 spaces).

Thank you,
Leigh Zimmermann
