

919 T Street NW

Proposed Project:

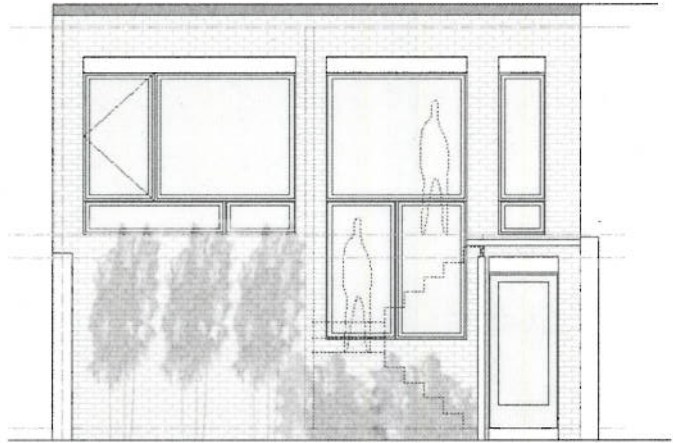

We hope to expand the main house with a two story addition at the rear of the property. The first floor will house a 2-car garage with additional living space on the second floor.

The house will be connected with a simple pergola as seen below.

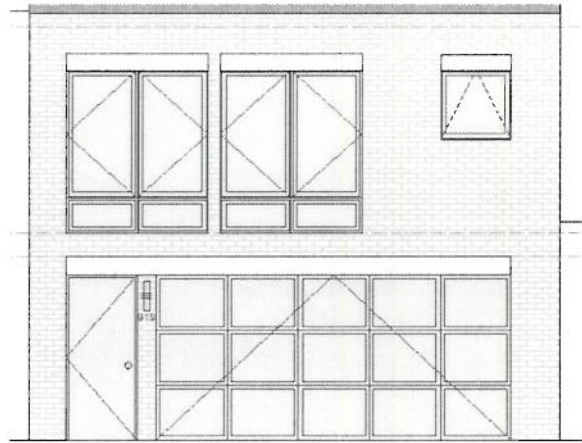

If you feel that our project supports the history and energy of the neighborhood, and wish to support us in our permit request to the Historic Preservation Review Board and the Advisory Neighborhood Committee, please complete the below.

Name: DAVID MEADVIN
Street Address: 923 T ST NW
