Re : BZA Application No. 18834

August 31, 2014

SUBJECT: Support for Special Exception for Mara Rudman/4429
Faraday PL NW

To whom it may concern,

As a resident of 4425 at Faraday PL NW, I live immediately next door to Mara Rudman at 4429 Faraday PL NW. I support the proposed back additions to the house located at 4429 Faraday Place NW. Per the drawings that Mara Rudman shared with me, the proposed scope is a back addition to the existing basement level and a new wood porch. The proposed design seems to respect the general architecture of the majority of the surrounding homes. I also believe that the height and size of the proposed additions will not create any visual/physical obstructions for us.

Again, I support the proposed additions to 4429 Faraday Place NW.

Sincerely,

Irene Kilduff
