Washington DC, 20010

Hello Neighbor!

I wanted to take this opportunity to introduce my business partner – Kaleabe Getaneh and myself – Sam Jahanbeen. We are proposing to establish a neighborhood oriented restaurant at 2737 Sherman Avenue NW to be known as *The Hilltop*. Chances are you've already read about us on the *Prince of Petworth* blog or met us in person while passing by.

The proposed restaurant will replace a nonconforming grocery store which had occupied the first floor and basement of the premises from 1952 to approximately 2004. To accomplish this transition, the Board of Zoning Adjustment must grant/approve our application for a special exception.

One important factor along our way is your support. We will be presenting our application at an appointed time before the Advisory Neighborhood Associates (ANC). Our neighbors will be notified through the ANC's prescribed neighborhood notification process. Our goal is to address any and all questions you may have.

To signify your support, please append your signature in the space provided below and return this to:

Washington DC, 20010

Hello Neighbor!

I wanted to take this opportunity to introduce my business partner – Kaleabe Getaneh and myself – Sam Jahanbeen. We are proposing to establish a neighborhood oriented restaurant at 2737 Sherman Avenue NW to be known as *The Hilltop*. Chances are you've already read about us on the *Prince of Petworth* blog or met us in person while passing by.

The proposed restaurant will replace a nonconforming grocery store which had occupied the first floor and basement of the premises from 1952 to approximately 2004. To accomplish this transition, the Board of Zoning Adjustment must grant/approve our application for a special exception.

One important factor along our way is your support. We will be presenting our application at an appointed time before the Advisory Neighborhood Associates (ANC). Our neighbors will be notified through the ANC's prescribed neighborhood notification process. Our goal is to address any and all questions you may have.
