

Request for expedited report

To the BZA;

We would be so grateful, if the Board's decision turns out to be favorable, if the order could be sent to us as a pdf over email at Atieno@gmail.com as soon as it is ready.

This would help us to expedite the start of construction and avoid as much as is possible of the polar vortex weather expected this winter! The construction involves removing the back of the house and roof, and we have two small children, (2 and 4 years.)

Thanks for any consideration,

Atieno Bird
