Statement of existing and intended use of the structure at 5526 39th St NW

5526 39th St. NW is an existing single family detached house built approximately 1930 prior to the establishment of R-2 zone. The intended use of the structure is to remain a single family detached house - owner occupied - expanded to occupy additional side yard and rear yard. The existing garage will be demolished and replaced with a new larger garage sufficient for contemporary vehicles, there will be a basement area for storage below the new garage.
