

Mr. Moy,

I am writing concerning today's third cancellation of the zoning hearing for #15 Browns Court, S.E. because of an interpreter not being provided for the owner, Jessica Crane. Residents and homeowners as well as concerned neighbors living near Browns Court have had these meetings on our schedules only to be disappointed and inconvenienced with all the changes. Now, again, with the third change I cannot attend as well as others who had planned to do so today, March 3.

After purchasing this property, Jessica Crane invited residents and homeowners to review her plans and meet the architect. They sought our concerns and ideas and were very receptive to both. I did not hear, nor have I heard since, any objection to Jessica's plans. The delay not only adds to her frustration but to us who want this property restored. Everyone is so pleased that we are going to have an owner and neighbor who intends to improve the looks as well as maintain the upkeep of this property. I urge you and would appreciate your help in providing an interpreter and moving this process along.

I am copying other Browns Court residents as I do not know whether or not they can attend the next scheduled meeting on March 10. If not, perhaps they will share their thoughts and support with you.
