Subject: BZA Case No. 18881, Application of Nando's Woodley Park, LLC

Dear Chairperson Jordan,

I oppose Nando's request for a variance as to the 25% restaurant cap as to the restaurant cap in Woodley Park. I have lived in Woodley Park for over 19 years and patronize many of the establishments in and around the Woodley Park Metro stop. Woodley Park has a sufficient number of restaurants.

Granting the variance would result in reducing the amount of space available for retail and service related businesses. At its November 12, 2014 meeting members of the Woodley Park Committee Association voted against raising the cap.
