

Photo from main garden looking onto cottage.

Christian Mulder states February 12, 2015: I have lived in the house for over 20 years. Nothing basic was changed to the outside of the cottage or the walls in all of this time.

The cottage has a very old foundation. It has cast iron piping which no doubt date back to the renovation of the main house around 1935 as some of the same pipe was used at that time in the house.
