

Top: 1505 Harvard Street on far left, next to apartment / condo building.

Bottom: 1505 Harvard Street with addition on left. Note mansard roof behind a parapet wall.

1505 Harvard Street rear yard looking to the southwest.

Rear yard looking to the northeast. Note second floor walk-out porch that will be converted to a walk-in closet, this will add to rear neighbors' privacy.

Three new condo buildings on the SW corner of the intersection of 15th and Harvard streets that were recently converted from single family homes in the past three years, while raising the building heights from 3 ½ to 4 ½ stories. The recessed window that is proposed for 1505 Harvard Street is much less apparent than the projecting “dormer” style windows that are shown here.
