

Bright Future Early Learning Center, LLC is established by three sisters working together. Two of whom are experienced in early child development and have been in child care service for more than five years providing caring, loving and educational services to families. The other one sister is from finance and accounting background, and with master's degree in finance and accounting. Being a working mom ourselves, we went and became caregivers to provide care to our own and to extend such loving and caring service to families in need. Our center offers warm, caring, safe, happy, affordable, reliable, and high-quality child care service. We have a cognitively based program for children ages six weeks to twelve years. We dedicate ourselves to provide high-quality early childhood developmental program that prepares each child for school. We aim to deliver child care service that meets the needs of individual child and family. We pride ourselves in beneficiary service tailored to each client; we always work with families in devising unique service to accommodate their need.
